Correction to: Journal of Pest Science

<https://doi.org/10.1007/s10340-025-01871-9>

Regarding the original publication of this article (Bedini et al., 2025), the authors wish to correct the following sentence in the Introduction:

The sentence:

“To date, no determined control strategies have been identified to fight the OQDS without uprooting the infected olive trees (Beretta et al. 2022).”

Should be revised to:

“To date, no determined control strategies have been identified to fight OQDS, apart from agronomic measures such as the uprooting of infected olive trees. More recently in Beretta et al. (2022) the authors have suggested, as an alternate

control strategy, the removal of a suitable amount of weed biomass from olive orchards and surrounding areas.”

Reference

Beretta E, Capasso V, Scacchi S, Brunetti M, Montagna M (2022) Prevention and control of OQDS (olive quick decline syndrome) outbreaks caused by *Xylella fastidiosa*. *J Theor Biol* 542:111118
